Client Profile: Modern Welding School

Company Overview

In business for over 80 years, the Modern Welding School trains individuals to enter the manufacturing industry as entry-level welders. While most of the students are from the Capital Region and surrounding areas, the school has seen an increase in students coming from Pennsylvania, Vermont, New Jersey, and Massachusetts. The school employs 12 full-time and two part-time staff.

Company Goals - Issues Needing Resolution

Modern Welding School was looking for a payroll partner to assist with individual tax reports, year-end reports, HR services, and help with creating an employee handbook.

GTM's Solution

By assigning a dedicated Account Manager to Modern Welding School, GTM was able to provide the quick and convenient reporting they needed. Plus GTM's HR On Demand service helped the school develop their customized employee handbook, which ensures compliance with labor laws.

What They Have To Say

Jeff Daubert, Vice President for Modern Welding School, has found GTM's professionalism to be first class. "Every single person I have ever spoken with at your company has been pleasant and friendly. That is very rare today!"

"Melanie is my current rep and it is a great pleasure every time I speak to her. She is the best! GTM is the one vendor I have that I can always count on."

"GTM is the one vendor I have that I can always count on."
